PROFILE

Pawan Pandey is an AI FullStack Engineer and the founder of WorkofMe, based in Uttarakhand, India. With a passion for innovative technology solutions, he specializes in developing AI-driven applications that enhance productivity and streamline workflows.

PROFESSIONAL EXPERIENCE

Founder and Engineer (Founder) 2026 - Present
WorkofMe
- As the Founder and Engineer at WorkofMe, I led the development of innovative products and strategies that drove business growth and enhanced user experience. My role involved overseeing project management, team collaboration, and technical implementation to ensure successful outcomes.

Senior Frontend Developer (Full-time) 2023 - Present
California Software (RyukLabs, Web3/AI division), Chennai, India
- Led frontend development for AI and Web3 applications. Built cross-platform mobile apps with React Native and improved load time by about 25%. Mentored developers and worked with international Agile teams.

Web3 Frontend Developer (Full-time) 2022 - 2023
Frontier, Bangalore, India
- Built DeFi and crypto wallet interfaces for asset management. Improved transaction-flow completion by 20% and implemented security-focused frontend features.

Frontend Developer (Full-time) 2021 - 2022
Revelation Software Labs, Bangalore, India
- Created a reusable design system, reducing interface development time by 35%. Improved design-to-development accuracy by over 90% and contributed to progressive web apps.

Frontend Developer (freelance) (Full-time) 2020 - 2021
Self-employed, Remote
- Delivered over 10 client projects in ecommerce and consumer products on time.

SELECTED PROJECTS

WorkofMe 2026 - Present
Founder
Nextjs, Typescript, Postgress, Nodejs, AI integration
- One polished destination for your work, projects, verified credentials, and client inquiries. Built for professionals, builders, creators, executives, and specialists of every discipline.
https://workofme.com/

Capo 2026 - Present

- The project is titled Capo and falls under the category of web app/software. It involves the development of an AI screenshot recorder and bug-reporting extension. This tool is designed to capture, annotate, and record the screen, and it includes integrations for efficient bug reporting.
